SUSTAINABLE GIFT WRAPPING IDEAS

FUROSHIKI

This Japanese method uses a wrapping cloth instead of paper, meaning it can be used over and over again. BONUS TIP: If you're buying for a fashion lover, you can use a beautifully patterned scarf to wrap that can also be part of the gift!

NATURAL DECORATIONS

Natural gift trimmings not only look impressive, but are relatively easy to gather. If you have a real Christmas tree, take a few cuttings to decorate with. Dried fruits such as orange slices or berries also add a pop of color!

ECO-FRIENDLY ALTERNATIVES

Many companies have caught on to the wasteful nature of gift wrap, so finding an eco-friendly solution has never been easier! Fun re-usable gift bags can be a great way to make your holiday seasons more sustainable for years to come.

LEARN TO WRAP WITH NO TAPE

If you're trying to use less plastic, a bit of clever folding (taken from the Japanese practice of origami) means you can still beautifully wrap your gifts, minus the tape. There's lots of tutorials online, so why not give it a go!

WELLNESS TIPS FOR A STRESS-FREE FESTIVE SEASON

BREATHE DEEPLY

Taking just a few moments to yourself when things are getting a bit too much to breathe can help to lower stress levels. Simply breathe in deeply through your nose, hold for 15 to 20 seconds and exhale slowly through the mouth.

STAY HYDRATED

At a time of year where we all indulge in the festivities, set yourself up for a great day, everyday by drinking a glass of water first thing in the morning, and plenty throughout the day. It will give your energy levels a boost, help flush out toxins, plus it's great for your skin!

TAKE SOME ME-TIME

You might think the best way to stay stress-free this festive season is to be as organised as possible, but sometimes all you need is some simple time out! Put on some relaxing music, light a scented candle and take a long bath.
